4 TIPS FOR PASSING THE ELECTRICAL ENGINEER INTERVIEW

TIP #1 – There are two sets of interview question that you will need to tackle during your electrical engineer interview. These are, motivational and behavioral. Motivational interview questions assess why you want to be an electrical engineer, why you want to work for their company, what skills you have relevant to the role, and also your strengths and weaknesses.

The behavioural interview questions are slightly harder to answer, and these include: when have you worked on a difficult electrical engineering project, when have you worked as part of a team, and also when have you had to deal with conflict as part of a team. To help you pass your electrical engineer interview, we have provided you with top-scoring answers to these questions in this pack.

TIP #2 – Your ability to operate safely at all times as an electrical engineer will undoubtedly be assessed during the interview. Consider carefully the steps and tests you undertake to ensure your work is both safe and compliant prior to attending the interview.

TIP #3 – Maintaining competence is a vital aspect of being an electrical engineer. Make sure your competency levels are fully up-to-date prior to your interview, and if you have any evidence to prove your competency, take it along with you to the interview.

TIP #4 – There is also a possibility you will be asked a series of technical electrical engineering interview questions. Do not neglect the basics during your preparation for the interview. Brush up on your basic electrical circuit and system knowledge and also be able to clearly explain the area of expertise you specialise in.
